REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The hydrogen generator which generates hydrogen from a predetermined material comprising a porous gaseous mixture layer and a hydrogen separation layer which through which only hydrogen selectively permeates there through and a porous hydrogen extraction layer wherein the respective layers form a laminate structure in which the hydrogen separation layer is interposed between the gaseous mixture layer and the hydrogen extraction layer is not disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited art pertains to fuel cell apparatus, hydrogen generator apparatus, and membrane module apparatus.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel M. Heinrich whose telephone number is 571-272-1175. The examiner can normally be reached on M-F.
